 - Ensuring education regarding safe and responsible use precedes internet access.
- Including online safety in Personal, Social, Health and Economic (PSHE), Relationships and Sex Education (RSE) and computing programmes of study
 - Reinforcing online safety messages whenever technology or the internet is in use.
 - Educating learners in the effective use of the internet to research; including the skills of knowledge location, retrieval and evaluation.
 - Teaching learners to be critically aware of the materials they read and shown how to validate information before accepting its accuracy.
- The setting will support learners to read and understand the acceptable use policies in a way which suits their age and ability by:

- Displaying acceptable use posters in all rooms with internet access.
- Informing learners that network and internet use will be monitored for safety and security purposes and in accordance with legislation.
- Rewarding positive use of technology (Safer Internet Day and e-Cadet competitions).
- Implementing appropriate peer education approaches (*e-Cadets*).

- Seeking learner voice when writing and developing online safety policies and practices, including curriculum development and implementation.
- Using support, such as external visitors, where appropriate, to complement and support our internal online safety education approaches.

Vulnerable Learners

- We recognise that some learners are more vulnerable online due to a range of factors. This may include, but is not limited to children in care, children with Special Educational Needs and Disabilities (SEND) or mental health needs, children with English as an additional language (EAL) and children experiencing trauma or loss.
- We will ensure that differentiated and ability appropriate online safety education, access and support is provided to vulnerable learners.
- When implementing an appropriate online safety policy and curriculum Shotley Bridge Primary School will seek input from specialist staff as appropriate, including the SENCO.

Training and engagement with staff

We will:

- Provide and discuss the online safety policy and procedures with all members of staff as part of induction.
- Provide up-to-date and appropriate online safety training for all staff on a regular basis, with at least annual updates (INSET days, yearly CPD through Purple Mash).

- Ensure all members of staff are aware of the procedures to follow regarding online safety concerns affecting learners, colleagues or other members of the community.

Awareness and engagement with parents and carers

- We recognise that parents and carers have an essential role to play in enabling children and young people to become safe and responsible users of the internet and associated technologies.
- We will build a partnership approach to online safety with parents and carers by:
 - Providing information and guidance on online safety in a variety of formats.

- This will include offering specific online safety awareness updates via the Weduc app and highlighting online safety at other events such as parent evenings, transition events, class assemblies and whole school assemblies.

- Requesting that they read online safety information as part of joining our community, for example, within our home school agreement.
- Requiring them to read our acceptable use policies and discuss the implications with their children.

6. Reducing Online Risks

- Our school recognises that the internet is a constantly changing environment with new apps, devices, websites and material emerging at a rapid pace.
- We will:
 - Regularly review the methods used to identify, assess and minimise online risks.
 - Examine emerging technologies for educational benefit and undertake appropriate risk assessments before use in the setting is permitted.
 - Ensure that appropriate filtering and monitoring is in place and take all reasonable precautions to ensure that users can only access appropriate material.
 - Due to the global and connected nature of the internet, it is not possible to guarantee that unsuitable material cannot be accessed via our computers or devices.
- All members of the community are made aware of our expectations regarding safe and appropriate behaviour online and the importance of not posting any content, comments, images or videos, which could cause harm, distress or offence to members of the community. This is clearly outlined in our acceptable use policies and highlighted through a variety of education and training approaches.

7. Safer Use of Technology

Classroom Use

- Shotley Bridge Primary School uses a wide range of technology. This includes access to:
 - Computers, laptops and other digital devices
 - Internet which may include search engines and educational websites
 - Learning platform (i.e. Microsoft teams, Weduc app).
 - Email
 - Games consoles and other games-based technologies
 - Digital cameras, web cams and video cameras
- All setting owned devices will be used in accordance with our acceptable use policies and with appropriate safety and security measures in place.
- Members of staff will always evaluate websites, tools and apps fully before use in the classroom or recommending for use at home.
- The setting will use age appropriate search tools following an informed risk assessment, to identify which tool best suits the needs of our community.
 - The Smoothwall filtering system used in most Durham schools ensures that when using Google it is automatically set to safe search. This reduces but does not eliminate the risk of links to inappropriate content.
- We will ensure that the use of internet-derived materials, by staff and learners complies with copyright law and acknowledge the source of information.
- Supervision of learners will be appropriate to their age and ability.

a. **Managing Internet Access**

All staff, learners and visitors will read and sign an acceptable use policy before being given access to our computer system, IT resources or internet.

b. **Filtering and Monitoring**

Note: A guide for education settings about establishing 'appropriate levels' of filtering and monitoring can be found at: <https://www.saferinternet.org.uk/advice-centre/teachers-and-school-staff/appropriate-filtering-and-monitoring>

8. Decision Making

- Our governors and leaders have ensured that our setting has age and ability appropriate filtering and monitoring in place, to limit learner's exposure to online risks.
- The governors and leaders are aware of the need to prevent "over blocking", as that may unreasonably restrict what can be taught, with regards to online activities and safeguarding.
- Our decision regarding filtering and monitoring has been informed by a risk assessment, considering our specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded.
- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.
- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard learners; effective classroom management and regular education about safe and responsible use is essential.

Filtering

- Education broadband connectivity is provided through **Durham County Council**.
- We use **Smoothwall**, which has a default list of categories which are blocked based on user level (granular).
- The filtering system blocks all sites on the Internet Watch Foundation (IWF) list.
- Some core content categories are updated centrally by Smoothwall - those are nation wide changes.
- All school devices should be connected to a filtered feed. If a school device needs access to additional content, for instance to manage official social media, the filter settings for that device or user should be modified to allow access to that content.
- If learners discover unsuitable sites, they will be required to:
 - The member of staff will report the concern (including the URL of the site if possible) to the DSL (or deputy) and technical staff.
 - The breach will be recorded and escalated as appropriate.
 - Parents/carers will be informed of filtering breaches involving their child.
- Any material believed to be illegal will be reported immediately to the appropriate agencies, such as the UK Safer Internet Centre, Durham Police or CEOP.

Monitoring

- We will appropriately monitor internet use on all setting owned or provided internet-enabled devices. This is achieved by:
- There's no monitoring of web access but any attempted breaches are automatically reported to the DSL at school, i.e. Headteacher.
- If a concern is identified via monitoring approaches we will:
 - **List how concerns will be responded to e.g. DSL or deputy will respond in line with the child protection policy.**
 - For most primary schools, Smoothwall provides reports about usage that could potentially indicate an issue, which requires further investigation. Alerting e-mails are sent to the headteacher (Mrs Kidd) who then takes appropriate action.
- If a concern is identified via monitoring approaches we will:
 - DSL or deputy will respond in line with the child protection policy.
- All users will be informed that use of our systems can be monitored and that all monitoring will be in line with data protection, human rights and privacy legislation.
